

Margarita Kattsyna, Software Engineer (Full-Stack)

React | TypeScript | Node.js | SQL | www.kattsyna.com | [LinkedIn](#) | [GitHub](#) | (323)603-6071 | kattsyna@gmail.com

SUMMARY

Software Engineer with hands-on experience designing and building end-to-end web applications using React, TypeScript, Node.js, and SQL/NoSQL databases. Experienced in API design, data modeling, and integrating third-party services, with a strong foundation in software architecture and problem-solving.

EDUCATION

- **Associate of Science in Computer Science**
Glendale Community College, CA; **GPA: 3.9 / 4.0**
- **Certificate in Web Development** (Expected 2026)
Glendale Community College, CA
- **Bachelor's degree in food technology**
KGTI, Krasnoyarsk, Russia

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, SQL, HTML, CSS
- **Frameworks/Libraries:** React, Node.js, Express, Tailwind CSS, Vite, Redux
- **Databases:** MySQL, PostgreSQL, MongoDB, SQLite
- **Tools & Platforms:** Git, Docker, Saplign
- **Familiar:** Swift, SwiftUI, Firebase, C++, C#, Unity

RELEVANT PROJECTS

[nfl-vacation.pages.dev](#) - Full-Stack Application

- Designed and implemented a full-stack travel planning application using graph algorithms (DFS, BFS, Dijkstra, A*, Kruskal's MST) to optimize stadium routes and scheduling logic.
- Built RESTful APIs and custom data structures to support route computation and user planning flow.
- Implemented interactive data visualization and responsive UI for improved usability.

[AI Assistant](#) - Scheduling & Productivity App

- Built an AI-powered assistant enabling users to manage schedules through natural-language interaction, integrating Google Calendar APIs.
- Designed backend logic to process user input, handle event creation, and synchronize calendar data securely.
- Focused on modular architecture to support future feature expansion.

[kattsyna.com](#) – Developer Portfolio:

React, Node.js, ThreeJS

- Designed and built a personal developer portfolio to showcase full-stack projects, emphasizing performance, responsive design, and reusable components.

PROFESSIONAL EXPERIENCE

Software Engineering Intern - TerryTech LLC September 29, 2025 - December 17, 2025

- Delivered production features for a cross-platform iOS application using Swift and Firebase, including CRUD functionality, onboarding flows, and haptic feedback.
- Collaborated in a team environment following clean architecture principles and version control best practices.
- Identified and resolved critical UI and logic issues, improving overall user experience.

Software Engineering Tutor - Glendale Community College

- Mentored students in data structures, algorithms, and full-stack web development, reinforcing best practices in problem-solving and clean code.

LANGUAGES

- Bi-Lingual: English – Fluent, Russian - Native
