

Margarita Kattsyna

Orange County, CA 92656 | www.kattsyna.com | [LinkedIn](#) | [GitHub](#) | (323)603-6071 | kattsyna@gmail.com

Highly trained graduating students bring an excellent foundation of skills along with diverse backgrounds. Experienced in building and maintaining web applications using modern technologies.

Education

- Associate of Science in Computer Science

Glendale Community College – Glendale, CA, USA **GPA: 3.8**

Campus involvement: the active member of Computer Science Club

- Certificate in Web Development

Glendale Community College - Glendale, CA, USA Expected: 2026

- Bachelor's degree in food technology: KGTI, Krasnoyarsk, Russia

Technical Skills

- **Languages:** JavaScript, TypeScript, Java, SQL, C++, HTML, CSS, Swift
- **Frameworks/Libraries:** React, Node.js, Express, Spring, SwiftUI
- **Databases:** MySQL, PostgreSQL, MongoDB, SQLite
- **Tools & Platforms:** Git, Docker, Sapling

Projects

• kattsyna.com – Developer Portfolio Website:

React, Node.js, ThreeJS

- Designed and developed a personal portfolio website to showcase full-stack projects and technical skills.
- Built with React for a dynamic, component-based frontend and Node.js for backend functionality.
- Implemented responsive design and smooth navigation to enhance user experience across devices.

• nfl-vacation.pages.dev

Built a full-stack NFL journey planner with React/TypeScript and Node.js/Express implementing five graph algorithms (DFS, BFS, Dijkstra, A, Kruskal's MST) and custom data structures for optimal stadium route planning with interactive visualization and e-commerce features.

- [AI Assistant](#) A full-stack web application that combines AI chatbot capabilities with Google Calendar integration, enabling users to manage their schedule through natural language conversations. [YouTube](#)

• [Club Page](#) – Modern Club Management Platform:

React, Node.js, Express, MongoDB, Docker

- Developed a full-stack web application for managing clubs, members, and events.
- Created responsive UI using React and Tailwind CSS, and managed global state with Context API. Deployed with Docker and MongoDB for data persistence.

• dev-briefs.com – Interactive Learning Platform:

React, Tailwind, Vite,

The application serves as both a personal coding journey tracker and a resource hub for technical interview preparation. Implemented YouTube video integration with custom thumbnail handling and fallback mechanisms for educational content. Developed interactive flashcards for self-assessment and knowledge retention

Work Experience:

- Software Engineering Intern - TerryTech LLC September 29, 2025 - December 17, 2025

Delivered cross-platform features for iOS storytelling app including CRUD operations, haptic feedback system, and onboarding framework using Swift, Firebase, and TypeScript following clean architecture principles; resolved critical UX bugs and maintained code quality through Sapling version control. [pajama app](#)

- CS Tutor - Glendale Community College

Languages

- Bi-Lingual: English – Fluent, Russian - Native
